

**M26/M30/M40/M50**

**MASTED FORKLIFT TRUCKS**

# M 26 / M 30 / M 40 / M 50

4 models, 12 versions to choose from

## M 26 and 30

2-wheel or 4-wheel drive  
Hydrostatic version  
on 2-wheel  
drive

## M 40 and 50

2-wheel or 4-wheel drive  
Hydrostatic version  
on 2-wheel  
drive

## MANITOU: AT YOUR SIDE ON ANY CONSTRUCTION SITE

The M range is Manitou's most established range. Unparalleled in the market, this range was developed with more than **50 years of working experience, innovations, and listening to our users.**

Renowned for their **sturdiness** and **performance** even in very extreme conditions, the all-terrain Manitou forklift trucks go where others do not!

In combining **simplicity** and **productivity**, the M forklift trucks are essential allies for your construction sites.

The **power** and the **manageability** of the M26, M30, M40 and M50 allow you to carry out your **handling duties in complete safety.**

# SIMPLICITY

## ■ ■ Simplified **USAGE** and **MAINTENANCE**

**COMMONALITY** across all models

### Spacious cab with a panoramic view

- Full vision cab with optional doors which can be securely folded back.
- Suspended cabin reducing vibrations for the operator.
- Efficient heating and ventilation as standard, air conditioning (optional).

### Ergonomic levers

The user benefits from being ideally positioned to use the controls which are naturally located within easy reach.

### **CURVED COUNTERWEIGHT : IMPROVED REAR VISIBILITY**

**Very tight turning  
radius**  
**3.40 m**

### EASE OF MAINTENANCE

whatever the model  
When the bonnet is **fully open** complete access **can be gained** to the engine, gauges, filters and lubricators, to reduce the maintenance time and to help prevent downtime.

### PANORAMIC CABIN : 360° VIEW

### QUICK AND SAFE ACCESS

via a large door and a no-slip step

### SHOCK ABSORBER

As standard, Shock Absorber technology keeps the load stable no matter the state of the ground on which you are manoeuvring.

# PRODUCTIVITY

## PERFORMANCE and STURDINESS

### Power: 75 HP

New generation **STAGE 3B** engine with particle filter.

### Energy saving

Fuel consumption reduced by up to 13%.

### Exceptional all terrain capability

Large diameter front wheels with good load distribution on both axles with central differential locking system. Available in 2 wheel drive and 4 wheel drive.

43 cm

Good ground clearance

Lifting height up to

7 m

Its **width** ensures the fork-lift truck has better stability for extra safety for lateral loading.

Rear axle can move through a wide angle

## Transmission

### Convertor

Torque convertor gives the operator a selection of gears suitable for high performance on all ground conditions.

### Hydrostatic

#### Recommended for applications requiring:

- a regulated working power,
- a constant speed control,
- a driving and approach precision,
- repetitive braking: the automatic braking, when releasing the accelerator pedal, improves comfort for the driver.

Mast reclines  
up to **15°**

**MANITOU masts,  
recognised quality  
for over 50 years!**

# TOGETHER, LET'S REDUCE OUR CARBON FOOTPRINT

The material handling sector has not yet got a normalised cycle to measure the trucks' energy consumption. Manitou Group clearly shows its commitment to transparency by establishing an internal protocol, accessible to all, that can reveal its own measures of consumption (l/h) and CO2 emissions (kg/h). To provide the highest reliability, the data is checked and approved by an independent body, UTAC\* specialized in the registration of vehicles and equipment.

## SUSTAINABLE SOLUTIONS

To be THE material handling reference is to commit to innovate to offer you safe, efficient and sustainable solutions today and tomorrow.

## TEST PROTOCOL

Consumption measurements are performed on four representative activities of a telescopic forklift: handling, bulk loading, idle and road work.

## TOGETHER

Manitou Group would like to accompany you in reducing your trucks fuel consumption to help cut back your carbon footprint.

## APPROVED PROCEDURES

To validate orientations adopted by the Group in terms of fuel consumption, we wanted to validate our procedures via a recognised external body.

## INFORM

We have developed information and awareness tools (product labels, iPad simulator...) to inform you about our trucks' fuel consumption and emissions.

Calculate your fuel consumption:  
<http://reduce.manitou.com>

\*UTAC: Technical Union for the Automobile, Motorcycle and Cycle Industries performs official duty cycles in the automotive sector. UTAC is the only French Technical Service notified to the European Commission and the UNO for fuel consumption.

**MANITOU**  
FINANCE

## Tailor-made finance to make the best use of your funds

You can plan the purchase of your forklift with peace of mind by using MANITOU<sup>\*</sup> financing opportunities.

You will have simple solutions adapted to your needs and seasonal requirements. If you want to make a rapid investment, consider asking us for a personalised proposal to take your situation into account.

\* MANITOU Finance solutions are available in certain countries.

## MANITOU maintenance contract

2 levels of maintenance adapted to your needs. You are sure of:

- equipment always in good working condition
- a reduction of repair costs as a result of regular servicing
- authentic standardised services

- Labour
- Attendance costs

- Labour
- Attendance costs
- Parts and lubricants

## MANIPLUS extension of guarantee

With **MANIPLUS** you can take out an extension of guarantee until 5 years.

## EASY MANAGER

A simple and flexible system for fleet management (with or without geolocation) to provide optimum service from your machines. **EASY MANAGER** gives you:

- real-time materials management
- simple and easy way of managing your machinery activity and maintenance
- maximise your asset and safeguard your equipment

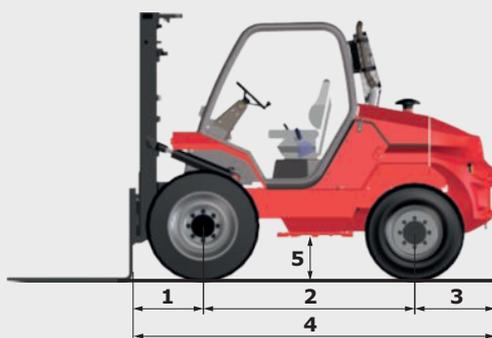

## MANITOU spare parts

Utilising genuine MANITOU spare parts is sure to prolong the best performance capability of your machine. Your MANITOU dealer has access to a stock of 70,000 part numbers, available in 24 hours in Europe (48 hours outside Europe).
